Exhibit A

That's it, Folks...

DigiToys Systems

Thank you.

For a variety of reasons, we have decided to terminate our activities. We would like to thank all our loyal customers for their continued support over the last 10+ years.

We will continue to provide our software products (i.e. WinLok and LocoNet Extender) free of charge. Please use the buttons to the left to open the download pages.

The software is provided as is. *There is no support available from us.*

However, the [User Mailing List](#) is still available and many users are more than willing to provide help in case of questions.
